Professional Summary

Automation Control Engineer with hands-on experience in SCADA systems, irrigation automation, control panels, and field operations. Skilled in troubleshooting, preventive maintenance, system integration, and solar energy solutions across large-scale projects in Saudi Arabia.

Professional Experience

Automation Control Engineer | Hossam El-Din Co. Ltd. – Riyadh, Saudi Arabia Mar 2025 – Present

Central Irrigation Control Systems Operation & Maintenance Project – Riyadh

SCADA & Irrigation Control Systems

- Operated and monitored SCADA systems (Motorola ICC & ICC Pro) for centralized irrigation control.
- Worked with Hunter irrigation controllers (ICC, ACC) and decoder-based systems.
- Performed troubleshooting and preventive maintenance for 103+ irrigation control sites across Riyadh.
- Designed, upgraded, and tested irrigation control panels to improve system reliability and protection.
- Participated in implementation of off-grid solar power systems for remote irrigation sites.
- Supervised field operations including installation, underground cabling, and maintenance activities.
- Coordinated with technicians and field teams during maintenance and system upgrade operations.

3D Printing Specialist – Freelance Mar 2023 – Apr 2025

- Delivered custom 3D printing projects for engineering applications and rapid prototyping.
- Specialized in FDM 3D printing technologies.
- Designed and printed engineering components and robotic prototypes.
- Worked with Cura and Orca Slicer for print optimization and troubleshooting.

Additional Technical Experience

Restaurant Systems Administration | Ghaid Restaurant – Riyadh, KSA | OCT 2025 – Present

- Managed Foodics POS operations and delivery platform integrations.

CCTV & Networking Systems

- Installation and configuration of Hikvision IP camera systems.
- Basic networking and wireless bridge setup using Ubiquiti NanoStation devices.

Education

Bachelor’s Degree in Mechatronics, Robotics, and Automation Engineering
Mansoura University – Egypt
Sep 2018 – Jan 2023
GPA: 3.53 / 4.00 (Very Good)

Key Projects

Autonomous Mobile Robot (AMR) – Graduation Project (A+)

- Developed an autonomous mobile robot for warehouse automation applications.
- Implemented navigation systems using sensors and control algorithms.

Vertical Rotary Parking System

- Designed an automated parking system integrating mechanical and electrical systems.

Agricultural Robot for Soil Tilling

- Developed an automated agricultural robot using embedded systems and sensors.

Certifications

- Certified SOLIDWORKS Associate – Mechanical Design
- Certified SOLIDWORKS Professional – Mechanical Design
- Advanced Assemblies & Sheet Metal – SOLIDWORKS
- Additive Manufacturing Associate Certification
- Classic Control & PLC Basic Programming
- UI/UX Front-End Development
- Manufacturing Processes Selection - Mechanical Design

Technical Skills

SCADA & Automation:

Motorola ICC / ICC Pro, Hunter ICC & ACC, Decoder Systems, AVEVA SCADA

Electrical & Control:

Control Panels, Wiring, Relay Logic, Troubleshooting, Preventive Maintenance

Engineering Software:

SOLIDWORKS, KeyShot, Cura Slicer, Orca Slicer

Additional Skills:

Solar Energy Systems, Embedded Systems, CCTV Systems, Basic Networking

Leadership & Activities

- Team Leader – Agritronics Club
- Mechanical Designer – Momentum Robotics Team
- Mechanical Designer – Biomix Team

Achievements

- Best Presentation – Egypt IoT & AI Challenge
- Finalist – The 2nd Egyptian Junior Researcher Competition

Languages

- Arabic – Native
- English – C1 Advanced
